Senior Research Analyst

Morgan, Lewis & Bockius LLP, one of the world’s leading global law firms with offices in strategic hubs of commerce, law, and government across North America, Asia, Europe, and the Middle East, is seeking to hire a Senior Research Analyst to provide expert and in-depth, as well as general, research services to the firm’s lawyers and staff.

Reporting to the Regional Director of Research Services, the Senior Research Analyst is technology-savvy and holds advanced knowledge and experience which allows them to perform at the highest level and serve as a designated specialist in an area relevant to the firm’s practices, clients, and business. The Senior Research Analyst also has the exceptional ability to work in a fast-paced environment, managing multiple, complex projects concurrently.

This position can reside in any West coast offices and offers a hybrid in-office/remote working schedule.

Key responsibilities include:

- Performs in-depth intellectual property, and other legal, corporate, financial and/or general research for lawyers, staff, and clients by utilizing the appropriate mix of the firm’s wide range of resources.
- Keeps up with new developments, technologies, innovations, and products in the field of intellectual property research, as well as other pertinent legal and business areas.
- Maintains a thorough understanding of the scope, accuracy, and cost-effectiveness of the firm’s various research resources and selects the most relevant tools for any given request and distills research findings into clear and concise deliverables.
- Evaluates new research resources and tools and conducts training on research resources and research techniques.
- Provides mentorship, training, and leadership to Research Services Analysts, Research Services Assistants, and staff.

Experience and qualifications:
- Master’s degree in Information or Library Science (ALA accredited preferred), and either a minimum of 5-10 years’ experience, or, an equivalent combination of education and experience.
- Knowledge of intellectual property research techniques and approaches.
- Must be proficient in Lexis, Westlaw, Derwent and/or other IP-related resources (e.g. Saegis, USPTO, etc.), and a wide range of other standard and specialized legal and business research platforms, as well as Microsoft Word, PowerPoint, Excel and Outlook.
